Thinking about what you know about introductions and conclusions (and using the hand-out that you just received), please brainstorm about what effective introductions/conclusions you could incorporate in your speech. Please jot down your ideas below. **Remember the best introduction and conclusion is circular – the conclusion will tie back in to what was said in the Introduction.**

Introduction:

Attention getting device (How are you going to hook in your audience immediately?) –

Thesis statement –

Conclusion:

Restate your thesis statement –

Note of finality/memorable conclusion (how will the audience know that I am done? What are the last few words that I am going to say so the audience remembers my speech?)
